About Unique

According to the Cambridge Dictionary, Unique means being the only existing one of its type or, more generally, unusual or special in some way. We hope to create a student union which is distinctive from the previous ones. We promise that Unique is an innovative student union that new ideas and activities are designed. If we are elected, students are surely not bored because of our multifarious activities. Unique is also so unique that we won’t run only in one groove. We are progressive and original enough to carve out a new era for students to learn and play both.

If you read our name once more, you will notice that “unique” has the similar pronunciation as “you need”. We hope to create a student union which you really need. Nowadays students always mumble that student union can’t fulfill their hopes. Yet, Unique is able to provide what you need. We are prepared to respond to your needs and voice out your thoughts. We want to act like a bridge between teachers and students; to make connections and increase communication and to help to create a more ideal school.

**Aims:**

1. To strive for rights and welfare

   We will listen to students’ opinion and strive for their needs. Students in Tanghin lack enough welfare and activities. Some of them are also anxious to express what they think and want. We will sincerely act as a bridge between students and our school in order to help schoolmates express their opinions. We will also seek for more welfare in order to provide students a enjoyable school year.

2. To provide students a productive and phenomenal school year

   We will hold a wide variety of avant-grade activities. Some of them are large-scale activities, like Twinkle Twinkle Little Star, Joint School Carnival, which are all newfangled to Tanghinians. We truly believe that we can bring Tanghinians a better school life this year and help them nourish a sense of belonging to Tang Hin. Moreover, students can have a fruitful and marvelous year.
3. To widen students’ horizons

One of the major defects of Tanghinians is that we lack opportunities to jump out of Tang Hin. Most of us only know things happening in our school, but seldom have an opportunity to try something new and meet new friends from other schools. Therefore, we decide to start organizing large-scale activities, especially Joint School activities. We cordially hope that through these meaningful joint school activities, Tanghinians can alleviate their obliviousness of the surroundings out of Tang Hin.
